An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 13, line 11, "electroylyte" has been changed to --electrolyte--.

The following is an examiner's statement of reasons for allowance: While Brown *et al.* (EP 1,063,334 or US 6,485,856) disclose polymer coatings for their inorganic granular fillers, there is no teaching that this polymer has the same main chain moiety as a material of the electrolyte membrane. Thus, Brown *et al.* do not disclose a fuel cell with a solid electrolyte having an insert material with both of the characteristics recited in claim 26. Support for an insert material having both characteristics is found in the present specification, at page 12, lines 9-12 and at page 13, lines 7-12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
